

# IDEATE 2024

June 19, 2024

9:00 am – 4:00 pm

Saskatoon Inn, Saskatoon, SK

**IDEATE 2024** is an opportunity for IMII’s minerals company, post-secondary and research institutions members to engage together to learn about and discuss problem areas identified by the minerals industry which they believe are amenable to applied research with the potential to lead to the development of innovative solutions.

Eight topic areas have been identified for 2024. The accompanying IDEATE 2024 Agenda & Research Topics document provides details on each of these topic areas. The workshops will allow for small table/group interactions between industry subject matter experts and interested researchers. They are meant to provide researchers with the opportunity to develop a clear picture of the industry interest and need to construct an initial problem statement on the challenge to be addressed in ideation.

### ACADEMIC REGISTRATION FORM

Name

Institution

Email

Phone Number

Workshops will be running in concurrent sessions. Please select only one workshop per timeslot.

Time	Room A	Room B
10:00 – 10:45	Health & Safety	Processing Technology
11:00 – 11:45	Technologies to Decrease Water Usage	Mineral Systems & Advanced Geoscience Capabilities
12:00 – 1:00	Lunch	
1:00 – 1:45	Mining Technology	Data Processing / Analytics
2:00 – 2:45	Complex Extraction Systems	Energy Utilization

Do you have any dietary requirements?

Yes

No

If answered yes, please list your requirements.
