**Front:** Clay Highmoor, John Paulo Santos, Ayden Kavalench, Matthew Trahan, Garrett Bazuik, Reid Bridges, Jordan Cemulini

## A Thank You From the Co-Captains

On behalf of the USask team we would like to extend our gratitude for your generous sponsorship! Without the support of sponsors, competing in this event would not have been possible. We are very proud to share the team placed 4th overall! We are also excited to share that the 2026 competition will be held back in Saskatchewan at the University of Saskatchewan.

Through your support, we were able to showcase our skill, creativity, and passion on a national scale and provide invaluable experiences and memories for each member of the team. We were proud to represent all sponsors and look forward to the possibility of working together in the future.

# SUMMARY OF RESULTS
