## An Immersive Introduction to Mining

June 23 – 25, 2026

The Willows Golf & Country Club | 382 Cartwright Street, Saskatoon

### Kevin Hall

Kevin is Hatch's Global Director of Potash and a mechanical engineer with over 22 years of experience delivering mining projects across the full project lifecycle. He has supported major potash producers through studies, engineering, execution, and commissioning, with extensive experience in both brownfield and greenfield operations. Kevin's background includes significant site-based roles, providing a practical, execution-focused perspective on mine site infrastructure and project delivery.
