

IMII School of Mining

An Immersive Introduction to Mining

June 23 – 25, 2026

The Willows Golf & Country Club | 382 Cartwright Street, Saskatoon

Tabetha Stirrett, P.Ge.

Tabetha Stirrett is Vice President of Mining & Energy at RESPEC, where she spends her days doing what she loves most—connecting great people with meaningful, technically challenging mining projects. A professional geoscientist with more than 25 years in the industry, Tabetha’s career has taken her from fieldwork and exploration through project management, business development, and executive leadership, with deep experience with industrial minerals.

Throughout her career, Tabetha has been passionate about creating space for women to thrive in traditionally male-dominated industries. She is a **co-founder of the Saskatchewan Women in Mining and Nuclear group in Saskatoon** and a former **President of WIM Canada**, where she focused on mentorship, retention, and building strong professional networks. She believes that better teams—and better outcomes—are built through diverse perspectives, curiosity, and genuine relationships.
